

③ ポータブルレーシングタイマー
(PRT-01) の装着方法

Putting on the portable racing timer (PRT-01)

タイマーを左太もも・大腿部の中央に付ける (液晶が下向き)

put the timer on the middle of the thigh/femur (display facing down)

The trick is to put it on a little outward to the left like shown in this picture.

横からのイメージ
左側面にセンサーが (液晶が下) ついて
いるので、ウェアやポールなどで隠れな
いよう装着してください

side view:
the sensor is located on
the left side (display facing
down), therefore please put
on so it is not covered by
your ski suit, poles etc.

太腿の内側に付けるとセンサーが隠れて
しまい計測不可

No Good!
If you place it towards the
inside of your thigh, the
Sensor will be covered
and your time can not
be measured.
